

3. if elif else Statement

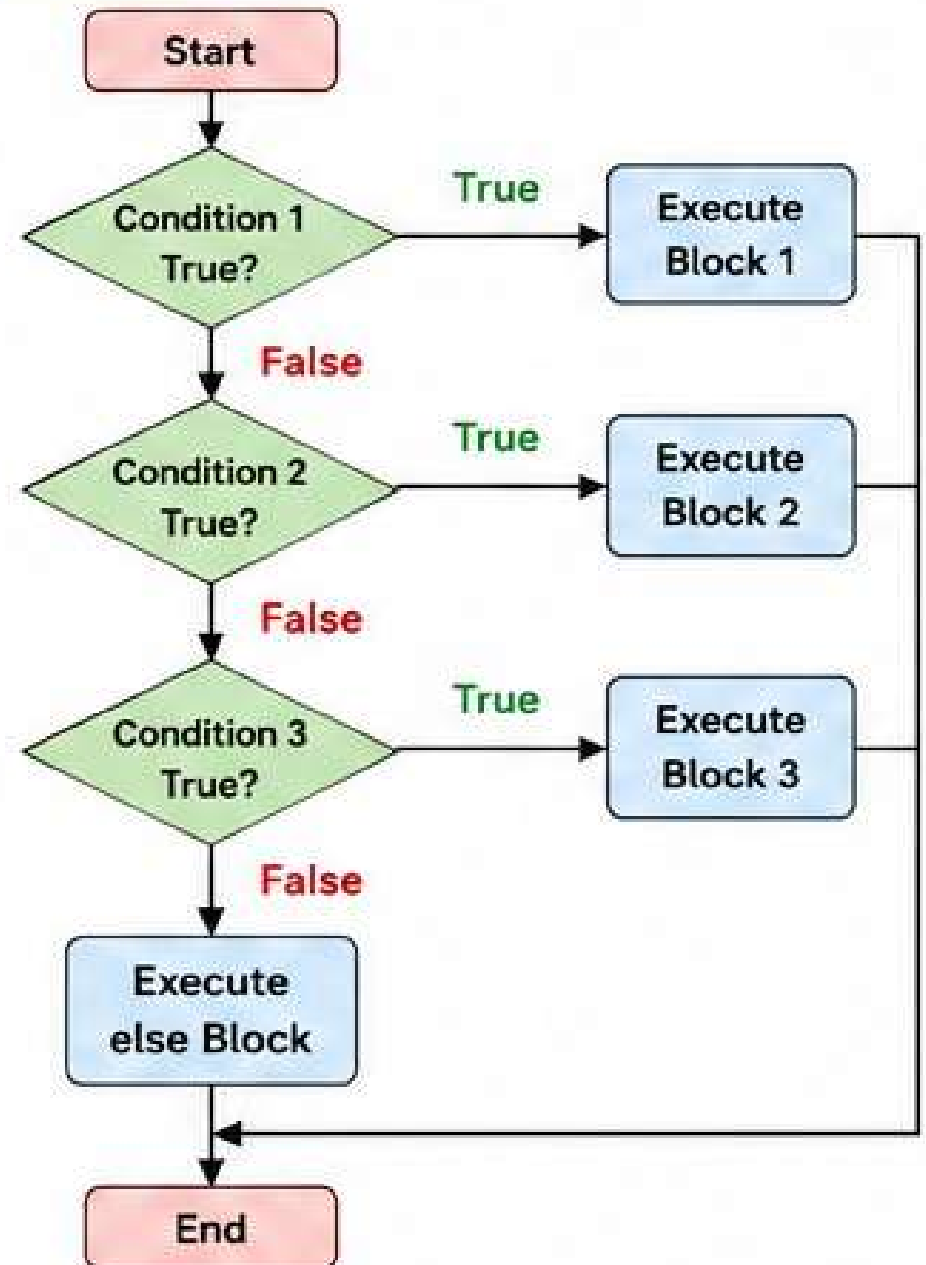

Definition:

The `if elif else` statement is used to check multiple conditions one after another. When one condition becomes True, its block executes and the remaining conditions are skipped.

Syntax:

```
if condition1:  
    statements  
elif condition2:  
    statements  
elif condition3:  
    statements  
else:  
    statements
```

4. Nested if Statement

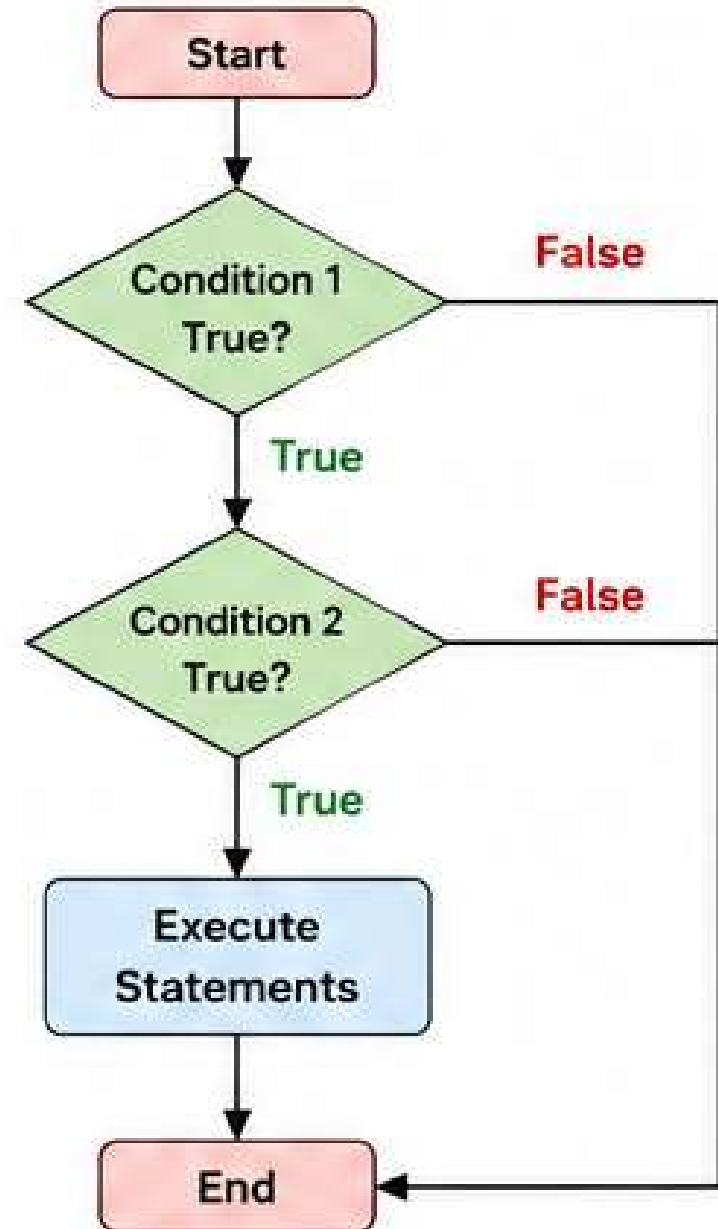

Definition:

A Nested if statement means placing one if statement inside another if statement.

Syntax:

```
if condition1:  
  
    if condition2:  
        statements
```

2. if else Statement

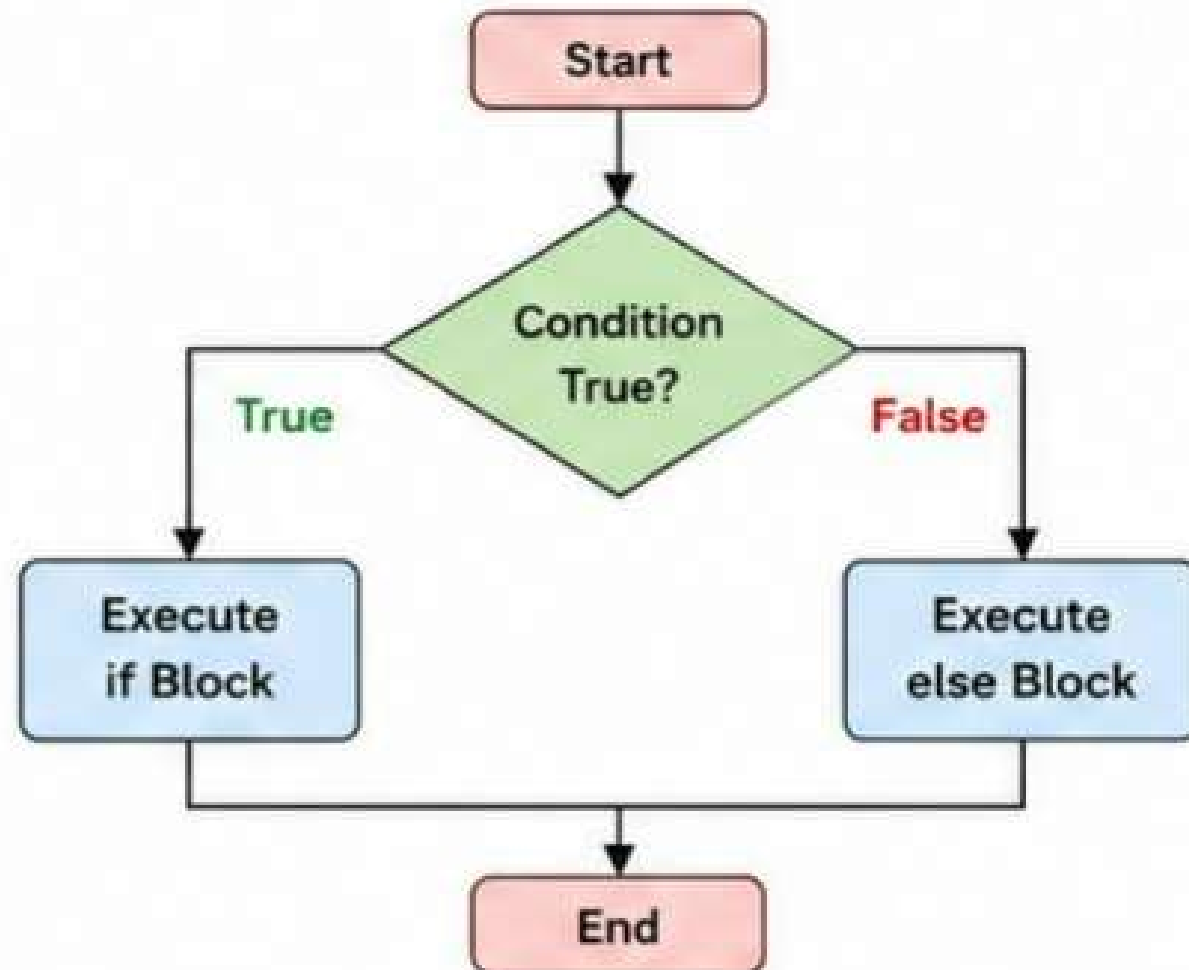

Definition:

The `if else` statement is used when there are two possible outcomes. If the condition is True, the `if` block executes; otherwise, the `else` block executes.

Syntax:

```
if condition:  
    statements  
else:  
    statements
```
